COMFORT AIR™ Specifications

	CA190	CA210
Suspension Capacity:	19,000 lbs.	21,000 lbs.
Suspension Weight:	460.50 lbs.	461 lbs.
Order Code:	NV8JTSG	

Typical Applications: Medium-duty applications where cargo protection, empty ride, constant freight height and driver comfort are a requirement — i.e., beverage trucks, furniture, rental, emergency vehicles, recycling vehicles, sweepers, tanker trucks and tractors.

One of the smartest investments you can make in your truck is spec'ing a Hendrickson air suspension. Hendrickson's technology, proven in over two million suspensions, helps increase driver comfort and provides superior cargo protection. A Hendrickson air suspension also helps to protect your vehicle from stress.

This COMFORT AIR suspension was specifically tailored for the Hino vehicle. The suspension mounting brackets use common frame hole locations with the mechanical suspension allowing relatively easy conversion to air ride.
