H HENDRICKSON
The World Rides On Us[®]

46,000 lb. capacity COMFORT AIR® for Hino XL Series

Reduced Maintenance

- Durable pivot bushing connection provides quiet operation and helps extend suspension service life
- Rubber bushings require no lubrication
- Reduced road shock and vibration to vehicle extends service life of cab, chassis and body equipment

Height Control Valve

- Fast acting HCV maintain precise ride height control through changing road surfaces, loads and driving conditions

Superior Ride

- Extended-length main support member generates lower spring rate for optimized roll stiffness, providing a more comfortable and compliant ride

Stability and Handling

- Cross-channel, axle and rear portion of the springs form box-shaped geometry for additional stability and handling

QUIK-ALIGN®

- Reduces maintenance time by offering a fast and easy method to adjust and set alignment without shims

Air Springs

- Adjust to changing load conditions to deliver superior ride quality

Shock Absorber

- Tuned for optimum damping characteristics to provide maximum driving comfort

All applications must comply with applicable Hendrickson specifications and must be approved by Hino with the vehicle in its original, as-built configuration.
