COMFORT AIR® Specifications

One of the smartest investments you can make in your truck is spec'ing a Hendrickson air suspension. Hendrickson's technology, proven in over two million suspensions, helps increase driver comfort and provides superior cargo protection. A Hendrickson air suspension also helps to protect your vehicle from stress.

This COMFORT AIR® suspension was specifically tailored for Hino's line of conventional commercial trucks. The suspension mounting brackets use common frame hole locations with those used for Hino's standard mechanical rear suspension, allowing relatively easy conversion to COMFORT AIR.

	CA190	CA210	CA230
Suspension Capacity	19,000 lbs.	21,000 lbs.	23,000 lbs.
Suspension Weight	460.5 lbs.	461 lbs.	530 lbs.
Main Support Member	Single	Single	Double

All applications must comply with applicable Hendrickson specifications and must be approved by Hino with the vehicle in its original, as-built configuration. All marks are trademarks of their respective owners.

Call your Hino truck dealer or Hendrickson at **630.910.2800** or **855.RIDERED (743.3733)** for additional information.
