HAULMAAX® for Hino XL Series

Hangers / Saddles
- Designed for maximum weight savings without sacrificing durability
- Easy to install.

Equalizing Beams
- Distribute load equally between axles, lowers center of gravity and improves stability and handling

Progressive Load Springs and Rubber Bolsters
- Provide excellent combination of empty ride and loaded stability
- Elimination of center bushing reduces maintenance

Rugged Bar Pin End Connection
- Extends bushing life and allows easy axle alignment and serviceability

Shock Absorbers
- Standard for additional driver comfort and equipment protection

Call your Hino truck dealer or Hendrickson at 630.910.2800 or 855.RIDERED (743.3733) for additional information.
