- Value added options
- Enhanced design features offer lower cost of ownership

To learn more about COMPOSILITE EXF-SD, call 800.660.2829 or visit www.hendrickson-intl.com
**COMPOSILITE® EXF-SD 13.5K Super Dump Tag NON-STEER Model**

**Inset Lower Beams**
- Optimized lateral stiffness
- Eliminates the need for V-rods

**Weld-Free Hanger Design**
- No welding on side rail hangers minimizes stress risers to prolong product life
- Flat hanger design allows for flexibility of bolt hole patterns

**Zero-Torsion Rubber Bushings**
- Provide increased durability and bushing life
- Longer bushing life promotes less downtime

**Secondary Bump Stop**
- Under extreme axle loading, the EX design for both steer and non-steer models incorporates a secondary mechanical bump stop (figure B) that transmits any additional loading into the axle seat - to further protect the beam from potential damage.

**New Product Enhancements**
- Inset lower beams improve lateral stability
- Longer life zero-torsion rubber bushings
- Comes with 68.5 in. axle track length
- Extended bump stops added for extreme axle loading conditions
- Improved durability allows for increased structural warranty coverage on this EX brand*  
- Has 7/8 in. pivot bolts - with the geometry of the suspension design divides longitudinal loads

* Call Hendrickson for complete warranty terms, conditions and limitations.

Actual product performance may vary depending upon vehicle configuration, operation, service and other factors.

All applications must comply with applicable Hendrickson specifications and must be approved by the respective vehicle manufacturer with the vehicle in its original, as-built configuration.

Contact Hendrickson for additional details regarding specifications, applications, capacities, and operation, service and maintenance instructions.

Call Hendrickson at **800.660.2829** or **800.668.5360** in Canada for additional information.
