Single-axle rear air suspension available on SAF-T-LINER® HDX bus models

Hendrickson and Thomas Built partner to deliver outstanding passenger and driver comfort along with exceptional handling characteristics.

To learn more about COMFORT AIR, call 855.743.3733 or visit www.hendrickson-intl.com
QUICK-ALIGN®
- Reduces maintenance time by offering a fast and easy method to adjust and set alignment without shims

Main Support Member
- Provides neutral roll steer for better handling
- Extended-length main support member generates lower spring rate for optimized roll stiffness, providing a more comfortable and compliant ride

Frame Hanger Bracket
- Wide footprint distributes load over a larger area, reducing stress to the frame to help increase the life of the vehicle

ULTRA ROD®
- Enhances handling during cornering by controlling lateral forces to maintain axle position

Height Control Valve
- Maintains precise ride height control through changing road surfaces, load and driving conditions

Air Spring
- Adjusts to changing load conditions to deliver superb ride quality

Shock Absorbers
- Tuned for optimum damping characteristics to provide exceptional driving comfort

COMFORT AIR® for Thomas Built
Capacities of 21,000 and 23,000 lbs. (SAF-T-LINER® HDX)
