H HENDRICKSON
The World Rides On Us[®]

40,000 lb. capacity COMFORT AIR® for Hino XL Series

Reduced Maintenance

- Durable pivot bushing connection provides quiet operation and helps extend suspension service life
- Rubber bushings require no lubrication
- Reduced road shock and vibration to vehicle extends service life of cab, chassis and body equipment

Height Control Valve

- Fast acting HCV maintain precise ride height control through changing road surfaces, loads and driving conditions

Stability and Handling

- Front portion of springs and axle form box-shaped geometry for additional stability and handling

Superior Ride

- Extended-length main support member generates lower spring rate for optimized roll stiffness, providing a more comfortable and compliant ride

QUIK-ALIGN®

- Reduces maintenance time by offering a fast and easy method to adjust and set alignment without shims

Air Spring

- Adjusts to changing load conditions to deliver superior ride quality

Kicked-in Main Support Member

- Eliminates cross-channel, reducing weight and part complexity

Shock Absorber

- Tuned for optimum damping characteristics to provide maximum driving comfort

*All applications must comply with applicable Hendrickson specifications and must be approved by Hino with the vehicle in its original, as-built configuration.
