- Outstanding ride
- Improved handling
- Reduced maintenance

Designed specifically for the Hino XL chassis, COMFORT AIR® rear air suspension delivers outstanding driver comfort along with exceptional handling characteristics. Using advanced spring technology from Hendrickson, COMFORT AIR’s main support member has a kicked in tail allowing for the removal of the cross channel and lower shock brackets. This helps to provide reduced weight, a softer ride and greater protection from the effects of road shock on your chassis, equipment, and driver.
40,000 lb. Capacity COMFORT AIR® for Hino XL Series

Reduced Maintenance
- Durable pivot bushing connection provides quiet operation and helps extend suspension service life
- Rubber bushings require no lubrication
- Reduced road shock and vibration to vehicle extends service life of cab, chassis and body equipment

Height Control Valve
- Fast acting HCV maintains precise ride height control through changing road surfaces, loads and driving conditions

Stability and Handling
- Front portion of springs and axle form box-shaped geometry for additional stability and handling

Superior Ride
- Extended-length main support member generates lower spring rate for optimized roll stiffness, providing a more comfortable and compliant ride

Kicked-In Main Support Member
- Eliminates cross-channel, reducing weight and part complexity

Air Spring
- Adjusts to changing load conditions to deliver superior ride quality

Shock Absorber
- Tuned for optimum damping characteristics to provide maximum driving comfort

QUIK-ALIGN®
- Pivot bolt connections reduce maintenance time by offering a fast and easy method to adjust and set alignment without shims

All applications must comply with applicable Hendrickson specifications and must be approved by Hino with the vehicle in its original, as-built configuration. Contact Hendrickson for additional details regarding specifications, applications, capacities, and operation, service and maintenance instructions.

Actual product performance may vary depending upon vehicle configuration, operation, service and other factors.

Call your Hino truck dealer or Hendrickson at 630.910.2800 or 855.RIDERED (743.3733) for additional information.
