PRIMAAX® EX
PRIMAAX® EX — MAXIMIZE PERFORMANCE AND DURABILITY

PRIMAAX® EX is a severe-duty vocational air suspension designed specifically for the rigorous demands of vocational, severe service and heavy haul applications. The system provides technologically advanced features designed to enhance durability, reliability, and handling characteristics.

Genuine Hendrickson Torque Rods
- Optimized configuration helps improve handling and roll stiffness for expanded applications
- Premium retained rubber bushings for increased service life and resistance to walkout
- Alternative rods available for disc brake use

QUIK-ALIGN®
- Allows for easy axle alignment without shims
- Reduces maintenance time and helps extend tire life

Axle Connections
- D-pin axle connection decreases torsional axle stress for reduced maintenance and improved joint integrity
- Integrated axle stop contact pads reduce axle stress

Height Control Valve
- Maintains proper suspension ride height
- Twin height control valves available for improved leveling in applications with uneven loading

Structural Beams
- Integrate end caps for increased reliability
- Utilize premium materials for high durability
- Robust rubber bushings improve service life and eliminate lubrication requirements

Air Springs
- Large volume, low frequency design for improved ride
- Advanced design air springs provide fast fill time
