

H AIRTEK® IC BUS RE SERIES

A NAVISTAR COMPANY

AIRTEK® delivers driver and passenger comfort, outstanding stability and extended vehicle life all in one package

An IC Bus RE Series bus equipped with Hendrickson's AIRTEK® integrated front air suspension and steer axle combines simple, functional design and state-of-the-art technology for superior ride, stability and handling. The same smooth, comfortable ride that cradles passengers and drivers reduces vibration-induced wear-and-tear on the bus itself to help extend overall vehicle and component durability. Capacities of 12,000 pounds and 14,000 pounds are now available.

For additional information, call **630.910.2800** or visit our web site at www.hendrickson-intl.com.

H HENDRICKSON
The World Rides On Us™

Driver and Passenger Comfort • Outstanding Stability • Extended Vehicle Life

Outstanding Stability and Handling

- Leaf spring assembly forms torsion system with box section axle, enhancing roll stability characteristics
- Dual height control valves react quickly to maintain proper ride height for shifting or unequal loads

Driver and Passenger Comfort

- High-volume air springs support approximately half of the vertical load while producing a softer, more comfortable ride

Maintenance and Durability

- Durable rubber front and rear bushings require no lubrication
- Unique two-piece knuckle design eliminates the need to remove the kingpin to service the knuckle

Up to 50 Degrees of Wheel Cut

- Superior maneuverability in tight spaces, such as parking lots and city streets

IC BUS RE SERIES OPTION CODES

Capacity	Suspension	Data Code
12,000 lbs.	AIRTEK®	03AZE
14,000 lbs.	AIRTEK®	03AZH
