Axle that fits global needs

Hendrickson offers a full line of industry standard, low maintenance non-integrated trailer axles to fit a variety of configurations for the global, commercial and industrial vehicle markets. TRLAXLE® trailer axles are available in numerous spindle types, capacities and axle tracks, drum or air disc brakes, 12 ¼- to 16½-inch brakes and many RTR® READY-TO-ROLL® wheel-ends, slack adjuster and brake chamber options – to fit either air or mechanical spring applications.

By combining Hendrickson TRLAXLE trailer axles with HT™ Series air suspensions, Hendrickson offers a wide variety of suspension / axle combinations and application coverage. TRLAXLE trailer axles deliver a low cost, low maintenance solution and superior customer and warranty support.
TRLAXLE® Trailer Axle Features and Benefits

Axle
- Axle capacities from 20,000 to 27,000 pounds
- Available in 1/2- to 3/4-inch wall
- Patented® axle filter protects the wheel-end from contamination

Drum Brakes
