COMPOSILITE™ FX provides big performance in a compact, lightweight design

**Rugged Reliability in a Compact Design**

COMPOSILITE™ FX maintains the rugged reliability you’ve come to expect from Hendrickson; now available for truck and trailer applications.

**COMPOSILITE FX provides the features and benefits of the steerable COMPOSILITE SC suspension system**

- 13,500-pound capacity for truck and trailer applications
- Lightweight fabricated axle
- Compact package improves installation for tight frame space availability
- Common components between the FX and SC model allow common use on same vehicle
  - Hendrickson integrated 15 x 4-inch brakes
  - Zero-torsion bushings

To learn more about COMPOSILITE FX call 800.660.2829 or visit www.hendrickson-intl.com
**COMPOSILITE™ FX Features and Benefits**

**In-line Air Springs**
- Minimizes package space and helps reduce the risk of possible driveline interference

**Parallelagram Beam Design**
- Allows lift and ride bags to open and close vertically and horizontally to enhance life cycle and reduce replacement
- Lift plates remain parallel for longer air spring life

**Lightweight Axle**
- Reduces suspension weight and maintains durability with increased wall thickness for both pusher and tag applications

**Hendrickson Integrated Brakes**
- 15 × 4-inch brake components, readily available for quick and easy maintenance
- Same integrated components as COMPOSILITE SC platform of suspensions
