Delivers premium ride quality on Volvo® VNL and VNR Series trucks

The superior design and engineering of the AIRTEK® system helps improve roll stability versus other suspensions. Its exclusive air springs support a majority of the load, greatly increasing driver comfort. Premium rubber bushings are incorporated to aid in the isolation of noise, vibration and harshness, which helps protect valuable cab components and contributes to AIRTEK’s exceptional ride quality. AIRTEK assists in protecting drivers from bumps and potholes, providing a premium ride while maintaining constant ride height. Available in 12,000-, 12,500-, 13,200- and 14,600-pound capacities, AIRTEK is up to 57 pounds lighter than standard content to improve load capacity and help enhance fuel efficiency on Volvo® VNL and VNR Series trucks.

To learn more about AIRTEK, call 855.743.3733 or visit www.hendrickson-intl.com
**AIRTEK® Features and Benefits**

**Improved Ride and Comfort**
- Exclusive air springs support a majority of the load to provide a low spring rate and improved ride
- Leaf spring assembly forms a torsion system with the axle to increase roll stability

**Reduced Maintenance**
- Durable rubber front and rear bushings require no lubrication
- Premium kingpin bushings and seals provide enhanced protection from the elements to improve bushing life and helps extend scheduled service intervals up to 100,000 miles*
- Unique two-piece knuckle design eliminates the need to remove the kingpin to service the knuckle
- Quick “snap” installation feature and “push-to-connect” air supply design produce fast and easy installation, and removal of air springs and height control valves (HCV)

**Lightweight STEERTEK™ NXT Axle**
- The box-shaped cross section resists horizontal, vertical and twisting forces more effectively than traditional I-beam axles to improve handling
- Continuous beam architecture minimizes stress points for added durability
- Weighs less than original I-beam and spring clamp group
- Integrated axles seats to improve ground clearance, reduce part count and simplify assembly
- Available in 12,000-, 12,500-, 13,200- and 14,600-pound capacities

**Brake Compatibility**
- Compatible with drum or disc brakes
- Accepts 5/8 and 3/4 in. brake hardware

**Warranty**
- STEERTEK NXT comes with a standard 10-year 1 million mile limited warranty**

The AIRTEK system is integral to and available exclusively with the STEERTEK NXT axle. Contact Hendrickson or Volvo for availability.

**SALES CODE** | **DESCRIPTION**
--- | ---
370430 | Hendrickson STEERTEK NXT 12,000 lb. Capacity
370431 | Hendrickson STEERTEK NXT 12,500 lb. Capacity
370432 | Hendrickson STEERTEK NXT 13,200 lb. Capacity
370433 | Hendrickson STEERTEK NXT 14,600 lb. Capacity
371076 | Hendrickson AIRTEK Matched to Front Axle Capacity

* Contact Hendrickson for full service interval details and limitations.
** 10-year, 1 million mile limited warranty covers certain structural components only. Warranty coverage applies to the axle beam, steering arm, knuckle assembly and kingpin when used in applications approved by Hendrickson and within the proper guidelines of the product. Warranty does not cover components experiencing normal wear.

$10,000,000,000,000 = 10,000,000,000,000
